LEONARD'S SEEDS

LEONARD'S CLATAWA or GET UP AND GET PEA.

Leonard Seed Co.
Chicago

TELEGRAPHIC CIPHER

By using the following telegraphic words for weights and measures, in connection with the telegraphic cipher attached to each article in this list, our customers will be able to wire at a small cost. Be sure that the telegraphic word for quantities always precedes the cipher word for the kind of seed wanted; but if the same quantity of several kinds is wanted, the word for that quantity need only be placed before the first article needed. We give an example:

"Express Quanrush Thrum Throne Tillage Tinkle"

Means "Ship by first express ten pounds each of Early White Flat Dutch, Cow Horn or Long White, Large Red Top Norfolk and Pomeranean White Globe Turnip."

"Freight Quarado Baneful Betroth Bibac"

Means "Ship by first freight fifty bushels each of Early Improved Red Valentine, Prolific German Black Wax and Scarlet Flageolet Wax Beans."

"Quote Quarado Baneful Betroth Bibac"

Means "Name your lowest prices on fifty bushels each Early Improved Red Valentine, Prolific German Black Wax and Scarlet Flageolet Wax Beans."

THE
WELL KNOWN
BRAND.

ENDORSED
BY
MARKET
GARDENERS

OUR REPUTATION has been built up by furnishing seeds of the best quality as to purity and germination, and we shall always endeavor to furnish THE BEST SEEDS that can be procured, and make prices as reasonable as possible.

NOTE OUR COVER ILLUSTRATIONS.

LEONARD'S POTLATCH PEA.

See Back of Cover.

"Potlatch," is Chenook Indian for **big dinner**. The way this Pea shells out gives promise of more than enough to go round, hence the name, Potlatch. It is a wonder in productiveness. The seed is green, similar to Pride of the Market, though somewhat more dented. It matures as early as Premium Gem, and like our Clatawa has pods like the Telephone. Its vines grow from 15 to 18 inches in height, with dark green foliage; the growth of the vine is sturdy and the pods are borne in pairs. No variety known will produce more pods, and no pods could possibly shell out better. The Potlatch is a variety from which anyone may expect great things. We consider ourselves very fortunate in having secured it, and we think it well entitled to its Indian name.

Price per bu. \$6.00.

LEONARD'S CLATAWA PEA.

See Front of Cover.

"Clatawa," is Chenook Indian for **get up and get**. It describes in a word the main characteristic of this wonderful new Pea. The Clatawa is as early as American Wonder and bears pods like the Telephone, which certainly proves it to be a "get up and get" article. Its stocky vine and dwarf habit puts it ahead of anything thus far brought out in the class of early wrinkled peas. **Earliness** combined with productiveness, **large pods** grown on a **short stocky vine** is what makes the Clatawa unique among wrinkled Peas. It will be a satisfaction to the market gardener while he picks it, and a source of profit when he sells it.

Price per bu. \$6.00.

For the History of these two Peas see Page 3 of our Descriptive Catalogue.

Not bound by these prices for any definite time or quantity, and subject to advance without notice.

Prices quoted are f. o. b. Chicago. Bags, boxes and barrels, to insure safe transportation, are charged for at cost. Proportionately higher prices will be charged for quantities less than one-quarter pound or one-quarter bushel.

TERMS: Garden Seeds, Net Cash, June 1st, 1906 without regard to date of purchase, or a discount of 1 per cent per month for unexpired time if paid before maturity.

Grass seeds, potatoes, field seeds, onion sets and sunflower, net cash, without any time or discount whatever.

Our telegraph code is the one adopted by the American Seed Trade Association.

While we exercise great care to have all seeds pure and reliable, we sell no seeds with warranty expressed or implied in any respect, and are not in any way responsible for the crop. If the purchaser does not accept the seeds on these terms, they must be returned at once.

Two Popular Beets.

The two varieties of table beets shown below are now the most popular with market gardeners. They can be safely recommended to all who desire quick growing, satisfactory garden beets. They are good varieties and are worth pushing. Prices on next page.

**CRIMSON GLOBE BEET.****LEONARD'S EGYPTIAN BEET.**

BEETS—For the Table.

LEONARD'S EGYPTIAN. *A strain of beet similar to Crosby, but of darker color and finer form. For the past fourteen years this strain has held first place on the Chicago market as an early bunching beet. It excels any other stock for early market use.*

----------------------	------------------	----

Early Jersey Wakefield.

EARLY JERSEY WAKEFIELD CABBAGE.

This is one of the most important varieties in the list. Great care must be exercised in the growing of the seed to have it pure and true to type. We give especial attention to the growing of our Wakefield stock, and its uniform excellence is a source of gratification to us. Our home gardeners are among the most critical buyers of cabbage seed in this country, and the fact that our stock suits them better than any other they can get gives assurance that it is what it should be.

LEONARD'S FAULTLESS.

The product of this seed out-sells any other second early cabbage two to one on the home market.

It is popular alike with the grocer, kraut-maker and shipper, and for the home garden is the variety above all others for either early or late. It can be had ready for table use shortly after the earliest pointed head variety, and can be planted late enough to be used as a fall and winter cabbage as well.

The best all purpose cabbage ever introduced. For prices see page 8.

CUCUMBER—Continued.

LEONARD'S GREENHOUSE CUCUMBER

WELL TRIED INSIDE.

This cucumber has been well tried by expert greenhouse growers. In every case they report great satisfaction with it.

This is a stock of cucumber upon which we have spent much time. The seed we offer is of our own growing and the selection is from the finest types only. The value of it to market gardeners and greenhouse men who desire a uniform, deep green, extra long cucumber will be appreciated as soon as tried. For many years we have been aiming to perfect this stock and at last our efforts have been rewarded. Nothing more choice in the way of a greenhouse cucumber has ever been sent out. **Per lb., \$1.50.**

ALSO OUTDOORS.

Those who grow their cucumbers outside will find this stock superior in all respects for this purpose also.

The Morse, W. S., similar to Black Seeded Simpson.....	Lest	40

LETTUCE—Continued.**WONDERFUL.**

Introduced four years ago and continually growing in favor. The large, white heads resemble cabbage in their solidity, and frequently weigh two and three pounds each. The quality is superb, being crisp, rich and tender. It withstands the heat well, making a fine variety for all seasons.

ONION SEED.

Leonard's Onion Seed is endorsed by market gardeners everywhere. Each year adds to its popularity with them. This is the surest indication of merit.

**LEONARD'S YELLOW GLOBE ONION.**

We have three special stocks of Globe onions: **Leonard's Yellow Globe**, **Leonard's Red Globe** and **Leonard's White Globe**. We have also a special stock of Flat Yellow which we call **Leonard's Early Yellow Cracker**. These stocks are grown principally to meet the requirements of critical gardeners and those who make onion growing a specialty. These onions are superior strains, grown from bulbs selected each year for perfection of type and color. The additional cost of the seed is more than made up for in the uniformity of the crop. As the seed of these special strains is grown by ourselves here at home, the quantity we harvest is necessarily limited. Quotations for these stocks will be found in their proper order in the list.

Mammoth Verbena.

SWEET PEAS.

NEW, LARGE FLOWERING VARIETIES.

If you want *good, pure Sweet Peas* of the *best* varieties, rest assured that we can supply you at the *most reasonable prices*. We have grown most carefully for this season's use a vast quantity of seed which for purity will rank at the top. Large quantities of poorly grown Sweet Peas are offered this season at low figures, which seed cannot but disgust the grower. The difference in the good grades and the very poor will not warrant any grower of running any risk. Be sure and start right by securing first-class seed.
